# DEEP BLUE DAYS

## FOSTER THE DEVELOPMENT OF COMMON SOLUTIONS AND NEW INTERACTIONS

*Our future is **blue** and **needs** to be prepared*

The **deep ocean** is one of the new frontiers, with contrasted specificities depending on the interactions between living species and minerals, and making it a confirmed or potential reservoir of **energy, mineral and biological resources**. The fast growing world population and the large emerging countries are demanding resources at an ever-increasing rate, and land-based resources become scarce. In this context, resources of the ocean are attracting **an increasing interest from the international community**. However, due to **extreme environmental conditions**, the **responsible exploitation** of these (mostly) non-renewable resources is a **complex process**, with many **challenges to overcome**.

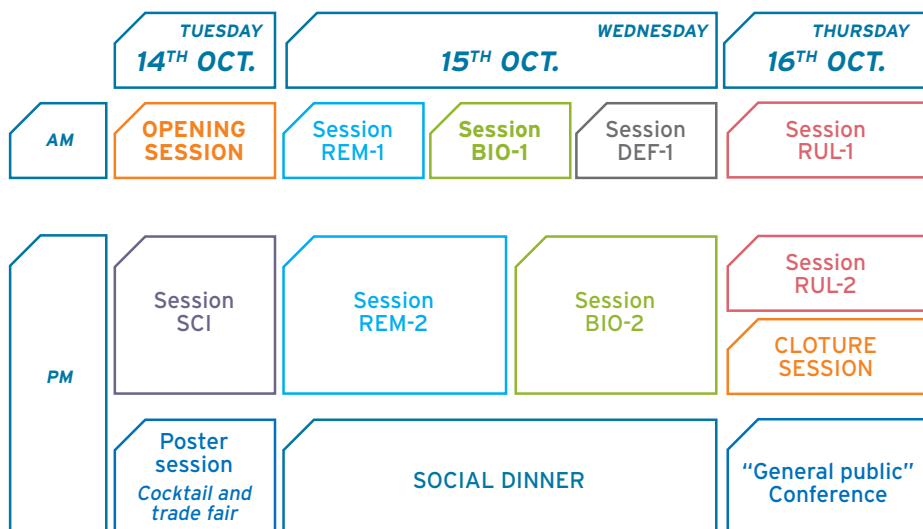

*Brest invites you to discover new frontiers of the Deep Ocean*

## • AN INTERNATIONAL CROSS-CUTTING APPROACH

Highly competent speakers from academia, industry, public institutions and governmental organisations, are expected to attend Deep Blue Days.

Brazil, invited country, but also China, Germany, Japan, Korea, Russia, UK, USA, Belgium, France...

## • PROGRAMME AT A GLANCE

- **SCI:** scientific challenges;
- **REM:** marine energy and mineral resources;
- **BIO:** marine bio-resources;
- **DEF:** security and safety;
- **RUL:** regulation, law, economics, environment and governance.

## • DEEP BLUE DAYS WITHIN SEA TECH WEEK

Take advantage of the Sea Tech Week 9<sup>th</sup> edition framework:

- > 1000 participants
- > 8 conferences and workshops including Deep Blue Days
- Various marine-related disciplines
- A human-scale trade fair (possibility to book a booth)

# • WELCOME IN BREST, "LA MER PAR EXCELLENCE"

Le Quartz Congress Centre: 60, rue du Château, Brest, France

## • INFORMATION AND REGISTRATION
